## THE PRIVACY POLICY

### Introduction

OnlyFet is a social network which enables users to share their content; other users to enjoy content and for some to do both. We refer to those users who share content as “Influencers” and those users who pay to view Influencers’ content as “Fans”. Most of this policy relates to all users but where necessary we differentiate between Fans and Influencers.

When people OnlyFet, they share some information with us. This policy sets out the information we collect, how we use it and who we share it with.

We confirm that the lawful basis for processing your data is that by participating with our social network you have [contracted with us](#) and the processing of data set out here is part of that contract. The contract is the Terms of Service to which all users are a party. To the extent that we have to monitor and control use of our site which includes the content posted, the Influencer who posted it and the Fan who accessed the content the basis for that processing is to fulfil a legal obligation.

If you have any questions about anything in our Privacy Policy or wish to complain then please contact [info@onlyfet.com](mailto:info@onlyfet.com). We hope that we can resolve any query or concern you raise about our use of your information.

#### Payment Providers

The volume of payments made by Fans to access content, payments made to Influencers for their content and where Users reside means that we use third party payment providers. This involves the transfer of personal data being names and bank details.

When Fans make payments these are processed through third party processors. You will contract with those third parties which will be the data controller of that data.

When we receive the monies, we remit the balance to the Influencers, minus management fees. The Influencer will either:

1. contract with the third party processor. We use a number of third party processors; or
2. be paid by us – if this happens the Influencer enters their banking information – each bank and jurisdiction has its own requirements onto our platform. We then arrange for payment.

#### Third-party content and integrations

At present we do not offer these.

#### Analytics and advertising services

We do not let other companies collect information about how you use our services.

How long we keep your content

Influencer Content

We want you to be in control of your information. At any time an Influencer can delete any content the Influencer choses to. To the extent content contains pictures or footage of you this is personal data.

Other Personal Data

**If any User closes the account the personal data that relates to your use of Only Fans and bank details we hold about you will be deleted after six months.**

The financial information needs to be retained for 7 years. This is a legal requirement as financial records can be investigated for that period and we need to retain details of payments made by you and to you.

This paragraph satisfies the provisions of Article 13(2)(b&c) GDPR.
